Receive your Project WET Curriculum & Activity Guide
and other resource materials

Project WET (Water Education for Teachers) is a collection of innovative, water related K-12 activities that are fun, easy to use and interactive! Participants will discover interesting water issues and topics using lessons from all school disciplines: language arts, history, math, science, visual arts and more. Project WET is a program that is taught in all subjects by educators worldwide.

Workshop Highlights:

State Standards
Groundwater

Watersheds
Surface water

Wetlands
Urban runoff

DON'T MISS This Water Education Opportunity! Use lesson plans from the *Guide* to enhance your teaching.

Project WET makes water education easy for teachers and meaningful to students.
